AK

Office Action Summary	Application No. 10/784,874	Applicant(s) HOTTA ET AL.	
	Examiner Ryan D. Walsh	Art Unit 2852	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 24 February 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-7 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-7 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☒ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 24 February 2004 is/are: a) ☐ accepted or b) ☒ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☒ All b) ☐ Some * c) ☐ None of:
1. ☒ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Drawings

Figure 6 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

The disclosure is objected to because of the following informalities: Page 12, Ln. 6, "Pickup roller (111)" should be changed to pickup roller (113).

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-7 are rejected under 35 U.S.C. 102(e) as being anticipated by Izawa et al. (US Pub. 2003/0118363).

Regarding claim 1, Izawa et al. teach, "An image heating apparatus (Abstract) for heating an image formed on a recording material, comprising: a conveying roller (10) for conveying the recording material; heat supply means which supplies heat to said conveying roller, said heat supply means (20) being in contact with an external periphery of said conveying roller to form a heating nip portion [0055]; back-up means (30) which forms a conveying nip portion (N) in cooperation with said conveying roller for nipping and conveying the recording material; wherein, in a rotating direction of said conveying roller, the heating nip portion has a width larger {[0133],Ln.1-6) and see (Fig. 15, ref. character H) is larger than N} than a width of the conveying nip portion, and a total pressure applied to the conveying nip portion is larger than a total pressure applied to the heating nip portion [0134]."

Regarding claim 2, Izawa et al. teach, "An image heating apparatus according to claim 1, wherein said conveying roller has an elastic layer (ref. # 12, and [0113], Ln. 2-3), and a maximum recess amount formed in said conveying roller by said back-up means (30) is larger than a maximum recess amount formed in said conveying roller by said heating means (20)." (See diagram below)

Regarding claim 3, Izawa et al. teaches, "An image heating apparatus according to claim 1, wherein a peak value in the pressure in the conveying nip portion is larger than a peak value in the pressure in the heating nip portion [0134]."

Regarding claims 4 and 6, Izawa et al. teach, "An image heating apparatus according to claim 1, wherein said heat supply means includes a heat generating member (21), a holder (24) for supporting said heat generating member, and a flexible rotary member {(19) and [0079], Ln. 1} nipped between said conveying roller and said heat generating member (21) and rotating (by 17 and 18) about said holder, and the heating nip portion (H) is formed between said heat generating member and said conveying roller and between said holder and said conveying roller."

Regarding claim 5, Izawa et al. teach, "An image heating apparatus according to claim 1, wherein said heat supply means includes a non-flexible rotary member (Fig. 11, ref. # 47) having a heat source therein (46), and the heating nip portion (Fig. 11, see between 40 and 47) is formed between said rotary member and said conveying roller."

Regarding claim 7, Izawa et al. teach, "An image heating apparatus according to claim 1, wherein the back-up means includes a flexible rotary member (ref. # 33, and [0084], Ln. 11-12) and a holder (32) provided inside said rotary member and supporting said rotary member, and the conveying nip portion (Fig. 2, ref. character N) is formed between said holder and said conveying roller, across said rotary member."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ryan D. Walsh whose telephone number is 571-272-2726. The examiner can normally be reached on M-F 7:00am-3:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Gray can be reached on 571-272-2119. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
